

MEMORANDUM

Date: 23 July 2007

To: Consultants

From: Lyle Knudsen, Program Director, DFCM

Reference: University of Utah
College of Nursing
DFCM Project No. 07260750

Subject: **Addendum No. 2**

2.1 Proposers shall acknowledge receipt of this addendum by entering the Addendum number on the "PROPOSAL" which is part of the "Request for Proposals."

2.2 Mike Stransky asked if the interview date could be changed - is that a possibility? Can it be moved up a day or two?

I could not resolve this issue due to people taking a long holiday. I will get an answer and post it and/or call everyone next week, after the 24th.

2.3 As the SFC request is for both Programming and potentially Design, how do we structure our Management Plan and interview? Are we to be addressing only programming services, or design services as well?

I would expect you would want to address both to give the client comfort that you are suited for each. Continuation is dependant on performance during programming. The successful proposer will have time to convince the client of his design skills during the program process.

2.4 Will conformance with the state's High Performance Building Standards be required for the renovation and is there any interest in pursuing LEED certification at any level?

It will need to conform with the state's High Performance Building Standards. I have not heard a desire to pursue LEED.

2.5 . Will the nursing faculty remain in the building during construction?

It was stated the desire is to move out; but that decision has not been made.

2.6 Will the Master Plan be available prior to the Management Plan submittal date?

It is on the web.
